Letter of Reference
Kansas Custom Klean

To whom it may concern,

I highly recommend Kansas Custom Klean for your industrial cleaning needs. Reggie McIntyre was a subcontractor for our previously contracted cleaning company and when that contract came to an end we contracted with Kansas Custom Klean.

We have an over 340,000 thousand sq. foot sorting facility in Olathe KS. Kansas Custom Klean takes care of our entire facility – included bathrooms, office space, break room and parking lot. Their crew comes in early in the morning to accommodate our needs and finishes their daily tasks in a very timely fashion. Reggie is extremely easy to communicate with and is always willing to change their routine if we have a special request or a particular time constraint.

We were very excited when their bid was selected by our Corporate team and we look forward to many years of success with them as our janitorial partner.

Sincerely,

Janelle Otoyá
Administrative Assistant to the Hub Sr. Manager
